Bio-Rad Multispot HIV-1/HIV-2 Rapid Test

Non-reactive

RNA Results

Kit Name

Copies/mL

Result

Abbott m2000 RealTime PCR HIV-1

< 40

Not Detected

Comments:

Summary: No evidence of infection with HIV-1. No evidence of vaccine-induced sero-reactivity or serological cross-reactivity. Note: If any previous HVTN HIV diagnostic test results showed evidence of vaccine-induced sero-reactivity, it is recommended that HIV diagnostic testing continue through the HVTN until no evidence of sero-reactivity is repeatedly demonstrated.
